INTERNATIONAL LABOUR ORGANISATION
BUREAU OF LEGISLATION
CHRONOLOGICAL INDEX

INTRODUCTION

This new edition of the Chronological Index is a revised version of that published in 1969. It lists, by alphabetical order of the originating countries, all Legislative Series texts promulgated down to the end of 1975, with the exception of those that are known to have been repealed.

Not all the texts listed, however, are necessarily still in force; some countries, for example, when enacting new legislation, merely state that it repeals "all contrary provisions". Some of the texts mentioned in this Index may therefore have been repealed, either wholly or in part, in this way, but they are likely to be few in number.

Each year the Legislative Series includes an annual supplement entitled "Indexes and chronological list of labour legislation", which indicates all the texts published in the Series in the course of the year; this supplement enables users to keep their Chronological Index up to date, pending the appearance of a new edition.

The following abbreviations have been used:

"Am.", which indicates the earlier basic text which is amended;

"Cons.", which indicates that the text published is a consolidation of an earlier and much amended text;

"V. also", which refers the reader to subsequent amendments.

Clearly, the geographical designations used in the Index, which sometimes relate to situations dating back as far as 1919, do not imply the expression of any opinion whatsoever on the part of the International Labour Office concerning the legal status of any country or territory or of its authorities or concerning the delimitation of its frontiers.

Each text mentioned in this Index bears a reference number, which is indicated in the right-hand margin, whereby it can be identified in collections of the Legislative Series or ordered from ILO Publications, International Labour Office, CH 1211 Geneva 22, Switzerland.

¹ For reasons of space this list does not include a large number of texts enacted by the various Australian states up to 1939 and published in the Legislative Series in the years before the Second World War but not followed up by the Series in reprint or translation form since that time. Details of amendments to these texts can be found in the relevant Annual Supplements.

Consolidated index to the ILO Legislative Series (1919-1970)

Edited by Mina Pease, Coordinator of the American Library Association Task Force on International Documentation.

Introduced by The Rt. Hon. Lord Stow Hill (formerly Sir Frank Soskice, the British Statesman), Attorney-General 1951, Secretary of State 1964, Lord Privy Seal 1965.

The publication is an essential reference tool for the thousands of subscribers to the bimonthly issues of this series. The Consolidated Index updates, amends, and combines the 1967 Chronological Index and the 1959 General Subject Index; it focuses upon the laws and regulations still in force, up to and including 1970, as determined by the ILO from its sources.

ISBN 0-904735-01-X 280 pp. 10" x 7" hardcover library binding Price: £15 or \$35

Also the

ILO Legislative Series (1919-1970) in microfiche

Essentially, all of the back issues are out of print. Much of the earlier material has badly deteriorated, yet in many instances these original laws and regulations—often amended over the years—remain in force today. Publication of the Micro-Library now affords libraries the opportunity of purchasing the entire series in convenient, standard microfiche. 70,000 pages of text are reproduced on 1,200 microfiche, as they appear in the ILO printed edition—annually, by country. Colour-coded title areas identify the exact material on each fiche.

Price: £750 or \$1500
